# THE PERFECT STORM

STORM SERIES CAT4

EOS-556

**US PALM** was built from the ground up serving the AK community—designing accessories that could survive the harshest conditions and perform without compromise. From reinforced stress points to ergonomics that work when it matters most, our products earned a reputation for being built to go to hell and back—tough, durable, and relentlessly reliable. Today, that same philosophy drives our evolution. **US PALM** has expanded into the AR market with the launch of the premium, feature-rich **STORM Series rifles**—completely designed in-house for unmatched performance and control. We’ve also introduced the **EOS suppressor line** – “Eye of the Storm”– to deliver cutting-edge suppression technology without sacrificing durability. What started as an icon in the AK world is now a full-spectrum firearms brand built on the same foundation: **UNIQUE. AUTHENTIC. PROVEN.**

Overall Length: 33.5"-36.8" Collapsed/Extended  
Weight (Unloaded): 7 lbs  
Magazine Capacity: 30 rounds

## STORM CAT4

SKU: RI0001000-1-AA-N (BLACK)  
SKU: RI0001000-1-AD-N (STORM GREEN)

The **STORM CAT4** is a duty-ready rifle built to exceed expectations—delivering premium, \$2,000+ rifle performance at an attainable \$1,300 price point. Designed by experts who live and breathe the AR platform, the **STORM CAT4** was built for shooters who demand more without overpaying for a name.

Every critical wear point has been reinforced with hardened, **user-serviceable components** to ensure long-term durability and reliability under hard use. **Fully ambidextrous** controls provide seamless operation in any environment, while an innovative upper-to-handguard interface enhances rigidity—maximizing mechanical accuracy and ensuring repeatability for laser aiming systems.

Ergonomics are dialed in with a complete in-house designed grip, engineered with user inputs to maximize control and comfort. A **hybrid flash hider** reduces both flash signature and felt recoil, keeping you on target when it matters most. Built without compromise. Engineered with purpose. When conditions are at their worst, the **CAT4** stands ready—because when you step into the storm, your rifle shouldn't have weak points.

## STORM CAT4 PISTOL

SKU: SU0021014-N

The **STORM CAT4 Pistol** delivers uncompromising performance in a compact, maneuverable platform built for serious shooters. Engineered with premium materials and purpose-driven features, the **CAT4** blends durability, precision, and adaptability into a pistol platform that excels in demanding environments.

At its core, the **CAT4** features a cold hammer forged **4150 chrome-moly barrel** for exceptional longevity and accuracy, paired with a **Hiperfire® EDT Designated Marksman Trigger** for a crisp, consistent break. The **mono-loc handguard system** and **full-length Picatinny rail** provide a rigid, optic-ready foundation for customization, while **full ambidextrous controls** ensure seamless operation for any shooter.

Whether for duty use, range performance, or defensive applications, the **STORM CAT4 PISTOL** is built to perform when it matters most.

**MSRP: \$1399**

### FEATURES:

- **Cold Hammer Forged Barrel** - Nitrided 4150 chrome-moly steel for durability and precision
- **Hiperfire® EDT Trigger** - Enhanced control with a clean, consistent pull
- **Mono-Loc Handguard System** - Rigid, lightweight platform with M-LOK compatibility
- **Full Ambidextrous Controls** - Optimized for left- and right-handed shooters
- **Optic-Ready Platform** - Full-length Picatinny rail for versatile sighting options
- **US Palm "Hurricane" Hybrid Flash Hider/Compensator** - Reduced flash and improved control
- **Flared Magwell** - Faster, more efficient reloads

## US PALM EOS SUPPRESSORS

The **US PALM EOS - "EYE OF THE STORM"** suppressor line represents the next evolution in hard-use performance—engineered to deliver uncompromising durability, advanced suppression, and exceptional value. Utilizing cutting-edge 3D-printed construction and premium **Inconel and Titanium** materials, each suppressor is purpose-built to perform in the most demanding environments.

Designed with low back pressure technology, the **EOS** line reduces toxic gas blowback to the shooter while minimizing wear on the host firearm—enhancing both shooter comfort and long-term reliability. The result is a suppressor system that performs at the highest level without compromising the service life of your firearm. From duty use to precision applications, **EOS suppressors are optimized by caliber & mission.**

# EYE OF THE STORM

## EOS-556

SKU: SU0021011-N

Built for 5.56 gas guns, the EOS-556 is a true “to hell and back” suppressor—compact, lightweight, and low-flash, while delivering class-leading performance in the K-category.

**MSRP: \$899**

### FEATURES:

- Class Leading Suppression
- Durable 3D Printed 718 Inconel Construction
- Low Back Pressure Design
- Passes SOCOM Stress Test for Durability
- Integrated Flash Hider
- 12.5oz Weight
- HUB Compatible and includes Titanium DT 1/2x28 Mount

## EOS-556

SKU: SU0021011-N

## EOS-30TI

SKU: SU0021014-N

Optimized for .300 BLK, the EOS-30TI is designed to maximize sound suppression while remaining low back pressure. Suppression without traditional baffles. Its lightweight titanium construction makes it ideal for both AR platforms & hunting applications.

**MSRP: \$999**

### FEATURES:

- High Volume Titanium Suppressor optimized for Semi-Auto 300BLK
- Class Leading Suppression
- 3D Printed Titanium Design
- Low Back Pressure Design
- Integrated Flash Hider
- 14.7oz Weight
- HUB Compatible and includes Titanium DT 5/8x24 Mount

## EOS-30TI

SKU: SU0021014-N

## EOS-AK

SKU: SU0021013-N

Purpose-built for AKM rifles, the EOS-AK mounts directly to standard 14x1LH threads and delivers exceptional suppression with rugged Inconel construction. One of the quietest AK-specific suppressors available—built for hard use without compromise.

**MSRP: \$899**

### FEATURES:

- Optimized for the AKM Platform
- Durable 3D Printed 718 Inconel Construction
- Low Back Pressure Design
- Passes SOCOM Stress Test for Durability
- Integrated Flash Hider
- 15.4oz Weight
- Collet System Optimized for AKM Mounting (14x1LH)

## EOS-AK

SKU: SU0021013-N

## EOS-30

SKU: SU0021012-N

Engineered for 7.62 platforms, the EOS-30 balances durability, size, & suppression—setting the standard for general-purpose .30 caliber suppressors.

**MSRP: \$899**

### FEATURES:

- Class Leading Suppression
- Durable 3D Printed 718 Inconel Construction
- Low Back Pressure Design
- Passes SOCOM Stress Test for Durability
- Integrated Flash Hider
- 14.7oz Weight
- HUB Compatible and includes Titanium DT 5/8x24 Mount

## AK30R MAGAZINE

SKU(S): MA943A BLACK, MA944A FDE, MA1120A POLY-BLACK, MA1119A POLY FDE

This is truly the evolution of the already unmatched US Palm AK magazine design. The AK30R is designed for reliability on the range and is priced so that you can load up on mags without breaking the bank!

This polymer magazine features a low friction self-cleaning polymer follower and the unique waffle and tread design that is synonymous with the US Palm brand. This magazine is ready right out of the bag to "Weather Any Storm."

**MSRP: \$12.99**

### SPECS:

- Low-friction self-cleaning polymer follower
- Proprietary polymer body and end cap
- 30-round capacity
- Manufactured: Made in U.S.A.

## US PALM AK GRIP

SKU(S): GR085 (BLACK), GR086 (FDE), GR087 (BAKELITE ORANGE)

Addressing a common concern among AK owners that the standard grip is too small, the US PALM AK Grip delivers more control through an ergonomic & ultimately more comfortable design.

This full-size Westernized rifle grip features a palm swell shaped to drive the user's hand up, and into, the receiver/grip junction. Aggressive stippling ensures a positive grip.

For the absolute #1 improvement to your AK, go with a US PALM AK Grip

**MSRP: \$18.99**

### SPECS:

- Virtually indestructible
- Ambidextrous
- Fits AK47, AK74, AKM, PKM, Yugoslavian/Serbian M64/ M70/M72/M21, Iraqi Tabuk, and RPK's of virtually any vintage or manufacturer
- Stock screw and lock washer included
- Section 922R Compliant Part
- Manufactured: Made in U.S.A.

## AK30 MAGAZINE

SKU(S): MA692A BLACK, MA693A FDE

Instantly recognizable and forever dependable, this is the world's most advanced AK-47 30-round magazine.

The sealed, one-piece design is built to endure with a proprietary polymer. A low-friction self-cleaning polymer follower keeps performing while the stainless steel latch cage ensures positive loading that won't give way when you need it the most.

The unique waffle and tread design that distinguishes the US PALM magazine provides a solid grip for the shooter during loading and unloading while providing rigid reinforcement.

**MSRP: \$19.99**

### SPECS:

- Stainless steel latch cage
- Low-friction self-cleaning polymer follower
- Proprietary polymer body and end cap
- 30-round capacity
- Manufactured: Made in U.S.A.
